

Installation Instructions

DNLVHLGD011A00 – DNLVHLGD022A00

Louvered Hail Guard Accessory for Small Rooftop Units
3 to 12¹/₂ Tons

Package Gas Electric Heating, Electric Cooling and Heat Pump Units

IMPORTANT: Read these instructions completely before attempting to install the accessory louvered hail guard.

PACKAGE CONTENTS

QTY	CONTENTS
1	Outside coil side panel
1	Outside coil end panel
Varies (Based on kit)	Screws

PACKAGE USAGE

Rooftop Unit Model	Hail Guard
RGS/RAS036	DNLVHLGD011A00
RGS/RAS048-060	DNLVHLGD012A00
RGS/RAS072	DNLVHLGD013A00
RGS/RAS091	DNLVHLGD014A00
RGS/RAS101	DNLVHLGD015A00
RGS/RAS121	DNLVHLGD016A00
RGS/RAS090	DNLVHLGD020A00
RGS/RAS120	DNLVHLGD021A00
RGS/RAS150	DNLVHLGD022A00

SAFETY CONSIDERATIONS

Installation and servicing of air-conditioning equipment can be hazardous due to system pressure and electrical components. Only trained and qualified service personnel should install, repair, or service air-conditioning equipment.

Untrained personnel can perform basic maintenance functions of cleaning coils and filters and replacing filters. All other operations should be performed by trained service personnel. When working on air-conditioning equipment, observe precautions in the literature, tags and labels attached to the unit, and other safety precautions that may apply.

Follow all safety codes. Wear safety glasses and work gloves.

Recognize safety information. This is the safety-alert symbol . When you see this symbol on the unit and in instructions or manuals, be alert to the potential for personal injury.

Understand the signal words DANGER, WARNING, and CAUTION. These words are used with the safety-alert symbol. DANGER identifies the most serious hazards which **will** result in severe personal injury or death. WARNING signifies a hazard which **could** result in

personal injury or death. CAUTION is used to identify unsafe practices which **may** result in minor personal injury or product and property damage. NOTE is used to highlight suggestions which **will** result in enhanced installation, reliability, or operation.

WARNING

ELECTRICAL OPERATION HAZARD

Failure to follow this warning could result in personal injury or death.

Before performing service and maintenance operations on unit, turn off main power switch to unit. If gas unit, shut off gas supply before shutting off main power.

TAG DISCONNECT SWITCH WITH A SUITABLE LOCK AND WARNING LABEL.

GENERAL

Louvered hail guard packages are designed to protect the rooftop unit condenser coil from hail and general contact damage. Excessive damage to rooftop unit outdoor coils can result in diminished performance due to reduced air flow over the heat transfer surfaces.

INSTALLATION

1. Verify the correct hail guard part number is provided for the desired rooftop unit size. See Package Usage Section.
2. Remove the screws in the top panel of the rooftop unit above the condenser coil. Save the screws.
3. Remove the screws at the base of the outdoor coil where the hail guard panel will be installed. Save the screws.
4. Align the hail guard panel with the respective section of the outdoor coil and insert the top edge of the panel under the lip of the top panel. (See Figure 1)
5. Re-insert top and bottom screws from Step 3 and 4 to hold the hail guard in place.
6. Insert side screws from the kit through the holes in the side(s) of the hail guard panels. The provided self tapping screws may be required for these screws.
